

# Why Hass Avocados from Chile better...

Chile's avocado production of *Hass* avocados has been rapidly increasing year after year due to its growing popularity worldwide. Identifiable by its more oval shape, delicious flavor, smaller pit and more buttery texture, *Hass* is the only avocado variety available all year round.

The natural conditions of Chilean valleys are optimal for growing high quality *Hass* avocados, producing avocados with a high oil content that makes a unique and exquisite flavor.
